OCBC Group Reported Second Quarter 2016 Net Profit of S\$885 million

Second quarter earnings down 15% year-on-year from lower insurance income, and up 4% quarter-on-quarter

Banking operations earnings flat YoY and up 3% QoQ

Interim dividend maintained at 18 cents per share

Singapore, 28 July 2016 - Oversea-Chinese Banking Corporation Limited ("OCBC Bank") reported a net profit after tax of S\$885 million for the second quarter of 2016 ("2Q16"). Against a strong quarter a year ago ("2Q15") which included a substantial gain from the sale of an equity investment under insurance subsidiary Great Eastern Holdings ("GEH"), net profit after tax was 15% lower, driven by a decline in investment income and unrealised mark-to-market losses in the insurance portfolio.

Earnings contributions to the Group from GEH fell 66% to S\$78 million from S\$230 million a year ago, partly due to the absence of a S\$105 million gain from the sale of an equity investment in 2Q15. GEH recorded strong underlying insurance business growth during the quarter, but its quarterly earnings were affected by unfavourable financial market conditions which resulted in unrealised mark-to-market losses in its bond and equity investment portfolio. Excluding GEH, net profit from the Group's banking operations was slightly down 1% year-on-year but 3% above the previous quarter ("1Q16").

For the second quarter, net interest income declined 2% to S\$1.26 billion from S\$1.28 billion a year ago, as a drop in interest earning assets offset improvements in net interest margin. Customer loan balances of S\$205 billion contracted 2% from a year ago from lower trade loans and reduced offshore borrowings of Chinese entities as a result of more favourable onshore borrowing rates. These offset increases in consumer loans and loans to the building and construction sector. Net interest margin for the quarter rose 1 basis point to 1.68% from a year ago from improved customer loan yields.

Non-interest income was 16% lower at S\$788 million as compared with S\$939 million a year ago. Fee and commission income fell 5% to S\$417 million, largely from lower brokerage and investment banking income. Net trading income, primarily treasury-related income from customer flows, rose to S\$123 million from S\$70 million in 2Q15. Net realised gains from the sale of investment securities of S\$44 million were lower as compared with S\$166 million the previous year, which had included a S\$136 million realised gain from the sale of an investment in GEH's equity portfolio (the Group's share of net profit after tax and non-controlling interest was S\$105 million). GEH's underlying insurance business performed well. Total weighted new sales climbed 23%, driven by growth across all distribution channels in Singapore and Malaysia, and new business embedded value rose 24% from healthy sales growth. However, profit from life assurance of S\$108 million was 19% lower as compared to a year ago, largely due to unrealised mark-to-market losses in GEH's equity and bond investment portfolio.

The Group's share of results of associates of S\$103 million was slightly above S\$102 million in 2Q15.

Operating expenses for the quarter rose a modest 1% to S\$932 million from S\$918 million a year ago as a result of disciplined cost management. The Group's cost-to-income ratio was 45.5%. Allowances for loans and other assets of S\$88 million were higher than S\$80 million a year ago.

As compared with 1Q16, the Group's net profit after tax rose 4%. Net interest income fell 4%, largely from a 7 basis points decline in net interest margin from a lower loan-to-deposit ratio and a decline in interbank placement rates. Net yield from customer loans and deposits was relatively stable quarter-on-quarter. Non-interest income rose 5% as growth across most fee income categories and higher life assurance profit more than offset lower investment income. Net trading income was stable quarter-on-quarter. Operating expenses rose 1% only, as cost containment measures have been put in place since the beginning of the year in view of the slowing market. Net allowances for loans and other assets were 48% below the previous quarter from lower portfolio and specific loan allowances.

First Half Performance

Net profit after tax for the first half of 2016 ("1H16") of S\$1.74 billion was 15% below S\$2.04 billion a year ago ("1H15"), which mainly reflected reduced earnings contributions from GEH. Excluding GEH, net profit after tax from the Group's banking operations fell 2%, as operating profit growth was offset by higher allowances set aside.

Net interest income for the Group rose 1% to S\$2.57 billion, led by a 7 basis points rise in net interest margin, which more than compensated for a fall in average asset volumes. Non-interest income of S\$1.54 billion was down 14% year-on-year. Fee and commission income declined 5% to S\$791 million, while net trading income, mainly comprising customer flow income, was up 26% at S\$245 million. Net gains from the sale of investment securities of S\$103 million were lower than S\$209 million in 1H15, which included a S\$136 million realised gain in GEH's equity investment portfolio. Profit from life assurance of S\$191 million in 1H16 declined from S\$331 million a year ago, as a result of unrealised mark-to-market losses in GEH's investment portfolios.

OCBC's private banking business continued to achieve strong growth. Its assets under management as at 30 June 2016 grew 12% to US\$61 billion (S\$82 billion) from US\$54 billion (S\$73 billion) a year ago. The Group's 1H16 wealth management income, comprising income from insurance, private banking, asset management, stockbroking and other wealth management products, of S\$1.00 billion was 21% lower than S\$1.28 billion a year ago, mainly due to lower income contributions from GEH. Excluding GEH, wealth management income increased 5% year-on-year. As a share of the Group's total income, wealth management contributions were 24% in 1H16 and 29% a year ago.

The Group's first half operating expenses were up 4% at S\$1.86 billion, mainly from staff-related costs. Net allowances for loans and other assets of S\$255 million were higher than S\$144 million set aside a year ago.

Income from associates of S\$209 million in 1H16 rose 9% from S\$191 million a year ago, largely attributable to increased contributions from associated company Bank of Ningbo.

Annualised return on equity for 1H16 was 10.3%, lower than 13.3% a year ago. Annualised earnings per share amounted to 83.5 cents, as compared to 101.8 cents a year ago.

Allowances and Asset Quality

Net allowances for loans and other assets were S\$88 million in 2Q16, as compared with S\$167 million the previous quarter and S\$80 million a year ago.

Specific allowances for loans, net of recoveries and write-backs, were S\$52 million and were the equivalent of 10 basis points of loans on an annualised basis, while portfolio allowances of S\$8 million were set aside.

The Group's asset quality remained sound. The Group had minimal loan and investment securities exposures to Europe. The non-performing loans ("NPL") ratio increased to 1.1% from 1.0% the previous quarter. As compared to the NPL ratio of 0.7% a year ago, the year-on-year increase largely reflected downgrades of a number of corporate accounts in the oil and gas support services sector which required their loan repayment terms to be restructured.

Prudent coverage ratios were maintained and total cumulative allowances represented 100% of total non-performing assets ("NPAs") and 271% of unsecured NPAs.

Funding and Capital Position

The Group maintained a strong funding position and was well-capitalised. As at 30 June 2016, customer loans and deposits were S\$205 billion and S\$246 billion respectively. The loans-to-deposit ratio was 82.2% as compared with 84.3% a year ago. The current and savings deposits to total non-bank deposits ratio of 49.3% was higher than 46.0% a year ago.

For 2Q16, the average Singapore dollar and all-currency liquidity coverage ratios for the Group (excluding OCBC Wing Hang and OCBC Yangon branch which will be included in due course) were 273% and 130% respectively, higher as compared to the respective regulatory ratios of 100% and 70%.

The Group's Common Equity Tier 1 capital adequacy ratio ("CAR"), Tier 1 CAR and Total CAR as at 30 June 2016, were 14.9%, 15.5% and 17.5% respectively. Based on Basel III transitional arrangements, these ratios were well above the respective regulatory minima of 6.5%, 8% and 10%. In addition to these minimum capital requirements, a capital conservation buffer ("CCB") of 2.5% and countercyclical buffer of up to 2.5% will be phased in from 2016 to 2019. The CCB was 0.625% as at 1 January 2016, and will be increased by 0.625% each year to reach 2.5% on 1 January 2019. The Group's leverage ratio of 8.2% was above the 3% minimum requirement as guided by the Basel Committee.

Interim Dividend

An interim dividend of 18 cents per share has been declared for the first half of 2016, similar to the 18 cents interim dividend paid in 1H15. The Scrip Dividend Scheme will not be applicable to the interim dividend. The interim dividend payout will amount to approximately S\$753 million, representing 43% of the Group's 1H16 net profit after tax.

CEO's Comments

Commenting on the Group's performance and outlook, CEO Samuel Tsien said:

"Our second quarter performance was resilient amid uncertain global economic conditions. Against a very strong second quarter of 2015 which included a substantial gain from the sale of an equity investment under Great Eastern, our earnings were lower as unrealised mark-to-market losses in our insurance subsidiary resulting from market volatility further reduced contributions to the Group. Excluding Great Eastern, operating profit from our banking operations was flat against the prior year and up 3% against the prior quarter. Credit quality is well-maintained, and our small European exposure was not adversely impacted by the recent market dislocations. We continued to be conservative in our loan classification and specific allowances provisioning to ensure that the Bank is prudently covered for the risks associated with the current operating environment.

We will continue to grow our businesses prudently, supported by our diversified sources of earnings and strong funding and capital position. We are well-positioned to weather the uncertainties ahead and capture new opportunities as they arise."

About OCBC Bank

OCBC Bank is the longest established Singapore bank, formed in 1932 from the merger of three local banks, the oldest of which was founded in 1912. It is now the second largest financial services group in Southeast Asia by assets and one of the world's most highly-rated banks, with an Aa1 rating from Moody's. Recognised for its financial strength and stability, OCBC Bank has been ranked Asean's strongest bank and among the world's five strongest banks by Bloomberg Markets for five consecutive years since the ranking's inception in 2011.

OCBC Bank and its subsidiaries offer a broad array of commercial banking, specialist financial and wealth management services, ranging from consumer, corporate, investment, private and transaction banking to treasury, insurance, asset management and stockbroking services.

OCBC Bank's key markets are Singapore, Malaysia, Indonesia and Greater China. It has over 610 branches and representative offices in 18 countries and regions. These include the more than 330 branches and offices in Indonesia under subsidiary Bank OCBC NISP, and more than 110 branches and offices in Hong Kong, China and Macau under OCBC Wing Hang.

OCBC Bank's private banking services are provided by its wholly-owned subsidiary Bank of Singapore, which operates on a unique open-architecture product platform to source for the best-in-class products to meet its clients' goals.

OCBC Bank's insurance subsidiary, Great Eastern Holdings, is the oldest and most established life insurance group in Singapore and Malaysia. Its asset management subsidiary, Lion Global Investors, is one of the largest private sector asset management companies in Southeast Asia.

FINANCIAL SUMMARY

OCBC Group prepares its financial statements in accordance with the Singapore Financial Reporting Standards (“FRS”) as required by the Singapore Companies Act, including the modification to FRS 39 *Financial Instruments: Recognition and Measurement* requirement on loan loss provisioning under Notice to Banks No. 612 “Credit Files, Grading and Provisioning” issued by the Monetary Authority of Singapore.

The following new/revised financial reporting standards and interpretations were applied with effect from 1 January 2016:

FRS 1 (Amendments)	<i>Disclosure Initiative</i>
FRS 16 and FRS 38 (Amendments)	<i>Clarification of Acceptable Methods of Depreciation and Amortisation</i>
FRS 27 (Amendments)	<i>Equity Method in Separate Financial Statements</i>
FRS 110, FRS 112 and FRS 28 (Amendments)	<i>Investment Entities: Applying the Consolidation Exception</i>
FRS 111 (Amendments)	<i>Accounting for Acquisitions of Interests in Joint Operations</i>
Various	<i>Improvements to FRSs (November 2014)</i>

There are a number of new/revised financial reporting standards in issue but not yet effective. They are not expected to have a material impact on the Group’s financial statements when adopted except for FRS 109: *Financial Instruments*. FRS 109 is effective from 1 January 2018. The Group is currently assessing the impact of FRS 109 on its financial statements.

Financial Results

The Group reported a net profit after tax of S\$885 million for the second quarter ended 30 June 2016 (“2Q16”), 15% lower as compared with S\$1.05 billion a year ago (“2Q15”), which included a substantial gain from sale of an equity investment under its insurance subsidiary Great Eastern Holdings (“GEH”).

Net interest income of S\$1.26 billion in 2Q16 declined 2% from S\$1.28 billion in 2Q15, mainly as a result of lower asset volumes. Non-interest income was down 16% to S\$788 million, from S\$939 million a year ago. Fee and commission income of S\$417 million fell 5% from S\$438 million in 2Q15. Investment income was lower at S\$44 million, as compared with S\$166 million in 2Q15, which had included realised gains of S\$136 million from the sale of an investment in GEH’s equity portfolio. Net trading income was higher at S\$123 million as compared with S\$70 million a year ago, while profit from life assurance fell by 19% to S\$108 million from S\$132 million in 2Q15. The Group’s share of results of associates of S\$103 million was slightly above that from a year ago.

Operating expenses grew 1% to S\$932 million from S\$918 million in 2Q15, mainly from higher staff costs. Allowances for loans and other assets amounted to S\$88 million, up from S\$80 million a year ago. The Group’s non-performing loans (“NPL”) ratio was 1.1% as at 30 June 2016, an increase from 0.7% a year ago.

For the first half of 2016 (“1H16”), the Group net profit after tax was S\$1.74 billion, a decline of 15% from S\$2.04 billion a year ago (“1H15”), and mainly reflected reduced earnings contributions from GEH.

Annualised return on equity was 10.3% in 1H16, as compared with 13.3% a year ago. Annualised earnings per share amounted to 83.5 cents in 1H16, and was 101.8 cents the previous year.

4. Average rates are computed on an annualised basis.

NET INTEREST INCOME *(continued)*

Net interest income declined 2% to S\$1.26 billion in 2Q16, from S\$1.28 billion a year ago, largely attributable to a fall in interest earning assets which offset improved net interest margins. Net interest margin rose 1 basis point to 1.68% from 1.67% from higher customer loan yields.

As compared with 1Q16, net interest income was 4% lower, mainly from a 7 basis points decline in net interest margin from a lower loan-to-deposit ratio and a decline in interbank placement rates. Net yield from customer loans and deposits was relatively stable quarter-on-quarter.

Note:

1. Comparative figures have been restated to conform with the current period's presentation.

Non-interest income in 2Q16 was S\$788 million, and was 16% lower as compared with S\$939 million a year ago.

Fee and commission income declined 5% year-on-year to S\$417 million, mainly from a fall in investment banking and brokerage fees. Net realised gains from the sale of investment securities of S\$44 million were lower as compared to S\$166 million in 2Q15, which had included a S\$136 million realised gain from the sale of an investment in GEH's equity portfolio (the Group's share of net profit after tax and non-controlling interest was S\$105 million). Net trading income, primarily treasury-related income from customer flows, of S\$123 million was 76% higher from S\$70 million a year ago. Profit from life assurance was 19% lower at S\$108 million, as unfavourable financial market conditions resulted in unrealised mark-to-market losses in GEH's bond and equity investment portfolio.

Against 1Q16, non-interest income was 5% higher from S\$753 million, underpinned by higher fee income and profit from life assurance.

Operating expenses rose 1% to S\$932 million for the quarter, reflecting cost containment measures which have been put in place since the beginning of the year in view of the slowing market. Staff costs were up 1% to S\$583 million from S\$575 million a year ago. Property and equipment-related expenses were S\$189 million, an increase of 5% from S\$179 million in 2Q15, mainly as a result of higher depreciation and technology-related costs.

Compared with 1Q16, operating expenses grew 1% from S\$923 million, largely from higher staff-related costs as the Group's annual salary increments took effect in April 2016.

The cost-to-income ratio was 45.5% in 2Q16 and 45.2% for 1H16 respectively.

Net allowances for loans and other assets were S\$88 million in 2Q16, as compared with S\$167 million the previous quarter and S\$80 million a year ago.

Specific allowances for loans, net of recoveries and write-backs, were S\$52 million, 11% higher from S\$47 million a year ago, with the increase coming mainly from Singapore. Net specific allowances were 10 basis points of loans on an annualised basis. Compared with the previous quarter, specific allowances were lower than S\$99 million in 1Q16.

Portfolio allowances for loans were S\$8 million for 2Q16, as compared with S\$32 million a year ago and S\$56 million in 1Q16.

Note:

- Loans by geography are based on where the credit risks reside, which may be different from the borrower's country of residence or the booking location of the loans.

Gross loans to customers were S\$205 billion as at 30 June 2016, lower as compared with S\$210 billion a year ago. This was largely from lower trade loans and reduced offshore borrowings of Chinese entities as a result of more favourable onshore borrowing rates, which offset increases in consumer loans and loans to the building and construction sector.

NON-PERFORMING ASSETS (continued)

Non-performing assets (“NPAs”) were S\$2.49 billion as at 30 June 2016, an increase from S\$1.49 billion a year ago. The year-on-year increase in NPAs was mainly due to the classification of a number of corporate accounts associated with the oil and gas support services sector.

The Group’s NPL ratio was 1.1%, higher from 0.7% a year ago and from 1.0% the previous quarter. Of the total NPAs, 70% were in the substandard category and 63% were secured by collateral.

The Group remains strongly capitalised, with a Common Equity Tier 1 (“CET1”) capital adequacy ratio (“CAR”) of 14.9%, and Tier 1 and Total CAR of 15.5% and 17.5% respectively. These ratios, based on Basel III transitional arrangements, were well above the regulatory minima of 6.5%, 8% and 10%, respectively, for 2016².

The Group’s CET1 CAR, based on Basel III rules which will be effective from 1 January 2018, was 12.7%.

The capital adequacy information of the Group’s significant banking subsidiaries as at 30 June 2016 were:

S\$ million	Total Risk Weighted Assets	Capital Adequacy Ratios		
		Common Equity Tier 1	Tier 1	Total
OCBC Wing Hang Bank Limited	17,294	14.4%	14.4%	17.9%

Bank OCBC NISP	10,603	17.9%	17.9%	19.0%

The capital adequacy ratios of OCBC Wing Hang Bank Limited are computed in accordance with the Banking (Capital) Rules issued by the Hong Kong Monetary Authority, and the ratios for OCBC Bank (Malaysia) Berhad are computed in accordance with the Capital Adequacy Framework (Capital Components) issued by Bank Negara Malaysia. Bank OCBC NISP computes their ratios based on the standardised approach under the Basel III framework.

¹ Public disclosures required under MAS Notice 637 Part XI can be found in the Capital and Regulatory Disclosures section of the Bank’s investor relations website (http://www.ocbc.com/group/investors/Cap_and_Reg_Disclosures.html).

² In addition to these minimum capital requirements, Capital Conservation Buffer (“CCB”) of 2.5% and Countercyclical Buffer (“CCyB”) of up to 2.5% will be phased in from 2016 to 2019. The CCB was 0.625% on 1 January 2016 and increases by 0.625% each year to reach 2.5% on 1 January 2019. The CCyB is not an on-going requirement and the applicable magnitude will be the weighted average of the country-specific CCyB requirements that are being applied by national authorities in jurisdictions to which the Bank has private sector credit exposures.

Note:

- Public disclosures required under MAS Notice 637 Part XI Division 3 Sub-division 11: Leverage ratio can be found in the Capital and Regulatory Disclosures section of the Bank's Investor Relations website (http://www.ocbc.com/group/investors/Cap_and_Reg_Disclosures.html).

The leverage ratio is an indicator of capital strength to supplement the risk-based capital requirements and is the ratio of Tier 1 Capital to total exposures (comprising on-balance sheet exposures, derivative exposures, securities financing transaction exposures and off-balance sheet items). As at 30 June 2016, the Group's leverage ratio was 8.2%, above the minimum requirement of 3% which is being tested by BCBS during the parallel run period from 2013 to 2017.

LIQUIDITY COVERAGE RATIOS

For 2Q16, the average Singapore dollar ("SGD") and all-currency liquidity coverage ratios ("LCR") for the Group (excluding OCBC Wing Hang and OCBC Yangon branch which will be included in due course) were 273% and 130% respectively. Compared with 1Q16, the SGD LCR rose 14 percentage points, mainly from an increase in central bank reserves. The all-currency LCR increased by 8 percentage points from higher sovereign bond holdings. Within 2Q16, the intra-period variances in LCR were due to movements in High Quality Liquid Assets ("HQLA") and in wholesale funding activities.

The Group continued to focus on acquiring stable deposits and to maintain a mix of HQLA comprising mainly Level 1 central bank reserves and liquid sovereign bonds. The Asset & Liability Management Desk in Global Treasury manages the day-to-day liquidity needs of the Group, and is subject to liquidity limits and triggers that serve as risk control on the Group's liquidity exposure.

Public disclosures required under MAS Notice 651 Liquidity Coverage Ratio Disclosure can be found in the Capital and Regulatory Disclosures section of the Bank's Investor Relations website (http://www.ocbc.com/group/investors/Cap_and_Reg_Disclosures.html).

UNREALISED VALUATION SURPLUS

Properties ^{2/}	3,918	3,910	3,915	3,964
Equity securities ^{3/}	2,379	2,734	2,508	4,917
Total	6,297	6,644	6,423	8,881

Notes:

- Includes properties classified as investment properties and assets held for sale. Property values are determined mainly based on external valuations at year-end, with internal reviews performed for other quarters.
- Comprises mainly investments in quoted subsidiaries and an associate, which are valued based on their market prices at the end of each quarter.

The Group's unrealised valuation surplus largely represents the difference between the carrying values of its properties and investments in quoted subsidiaries and an associate, and the market values of those properties and quoted investments at the respective periods. The carrying values of subsidiaries and associate on the balance sheet are measured at cost plus post-acquisition reserves, while those of properties are measured at cost less accumulated depreciation, and impairment, if any.

The valuation surplus as at 30 June 2016 was S\$6.30 billion, down 5% from S\$6.64 billion as at 31 March 2016, mainly from lower equity securities valuation from the Group's equity stake in GEH.

PERFORMANCE BY BUSINESS SEGMENT

OCBC Group's businesses are presented in the following customer segments and business activities: Global Consumer/Private Banking, Global Corporate/Investment Banking, Global Treasury and Markets, OCBC Wing Hang and Insurance.

Global Consumer/Private Banking

Global Consumer/Private Banking provides a full range of products and services to individual customers. At Global Consumer Banking, the products and services offered include deposit products (checking accounts, savings and fixed deposits), consumer loans (housing loans and other personal loans), credit cards, wealth management products (unit trusts, bancassurance products and structured deposits) and brokerage services. Private Banking caters to the specialised banking needs of high net worth individuals, offering wealth management expertise, including investment advice and portfolio management services, estate and trust planning, and wealth structuring.

Operating profit after allowances rose 9% year-on-year to S\$526 million in 1H16, driven by growth in net interest income, and partly offset by higher expenses and allowances. 2Q16 operating profit of S\$273 million was 3% higher from a year ago and was up 8% from the previous quarter. The increase in operating profit for both periods was led by higher net interest income and fee income.

Global Corporate/Investment Banking

Global Corporate/Investment Banking serves institutional customers ranging from large corporates and the public sector to small and medium enterprises. The products and services offered include long-term loans such as project financing, short-term credit such as overdrafts and trade financing, deposit accounts and fee-based services such as cash management and custodian services. Investment Banking comprises a comprehensive range of financing solutions, syndicated loans and advisory services, corporate finance services for initial public offerings, secondary fund-raising, takeovers and mergers, as well as customised and structured equity-linked financing.

PERFORMANCE BY BUSINESS SEGMENT *(continued)*

Global Corporate/Investment Banking's operating profit after allowances fell 1% from a year ago to S\$975 million in 1H16, as net interest income growth was offset by higher expenses and allowances. 2Q16 operating profit was down 5% year-on-year to S\$468 million, largely from lower fee income. Quarter-on-quarter, operating profit fell 8%, as lower net interest income and investment income offset a decline in allowances.

Global Treasury and Markets

Global Treasury and Markets is responsible for the management of the Group's asset and liability interest rate positions, engages in foreign exchange activities, money market operations, fixed income and derivatives trading, and offers structured treasury products and financial solutions to meet customers' investment and hedging needs. Income from treasury products and services offered to customers of other business segments, such as Global Consumer/Private Banking and Global Corporate/Investment Banking, is reflected in the respective business segments.

Global Treasury's operating profit after allowances fell 18% to S\$219 million in 1H16, as lower net interest income from limited gapping opportunities more than offset higher net trading income. 2Q16 operating profit rose 13% from a year ago to S\$101 million, driven by higher net trading income, partly offset by a decline in net interest income. Compared to 1Q16, operating profit was down 15%, reflecting lower net interest income.

OCBC Wing Hang

OCBC Wing Hang offers a comprehensive range of commercial banking and related financial services such as consumer financing, share brokerage and insurance.

OCBC Wing Hang's operating profit after allowances was S\$168 million in 1H16, 9% lower from S\$185 million a year ago, mainly attributable to lower fee income and net trading income, as well as higher expenses. 2Q16 operating profit of S\$94 million was 1% higher year-on-year, mainly attributable to higher investment income and lower allowances, which more than offset a decline in net interest income and fee income. Quarter-on-quarter, operating profit rose 28% mainly from higher fee income and lower allowances, partly offset by a decline in net interest income.

Insurance

The Group's insurance business, including its fund management activities, is undertaken by 87.6%-owned subsidiary GEH and its subsidiaries, which provide both life and general insurance products to its customers mainly in Singapore and Malaysia.

GEH's operating profit after allowances fell 58% year-on-year to S\$226 million in 1H16 and was down 60% to S\$120 million in 2Q16. The year-on-year decline for both periods was attributable to lower insurance income arising from unrealised mark-to-market losses in its investment portfolios, and from the absence of a realised gain from the sale of an equity investment recognised in 2Q15.

After tax and non-controlling interests, GEH's contribution to the Group's core net profit was S\$151 million in 1H16 and S\$78 million in 2Q16, down from S\$411 million in 1H15 and S\$230 million in 2Q15.

Others

Others comprise mainly property holding, investment holding and items not attributable to the business segments described above.

For 2Q16, Singapore accounted for 56% of total income and 46% of pre-tax profit, while Malaysia accounted for 16% of total income and 19% of pre-tax profit. Greater China accounted for 15% of total income and 23% of pre-tax profit.

Pre-tax profit for Singapore was S\$507 million in 2Q16, a decline from S\$749 million a year ago, as higher fee and net trading income were more than offset by lower net interest income and profit from life assurance. Malaysia's pre-tax profit was up 11% at S\$214 million from S\$192 million in 2Q15, mainly attributable to lower allowances. Pre-tax profit for Greater China was S\$253 million in 2Q16, unchanged from a year ago.

1H16 pre-tax profit for Singapore was S\$1.08 billion, 25% lower from S\$1.45 billion in 1H15, as net interest income growth and higher net trading income were offset by an increase in operating expenses and allowances. Malaysia's pre-tax profit was S\$404 million for the period, unchanged from a year ago. Pre-tax profit for Greater China was S\$475 million, a decline of 3% from S\$489 million in 1H15, as an increase in associates' profits were offset by a decline in net interest income.
