Will Stock Markets Head Higher in 2010?

Global stock markets posted a sterling performance in 2009, aided by radical government policies worldwide and an unprecedented and synchronised injection of liquidity into the financial system by global central banks. Will markets continue to head higher in 2010 and what are some of the opportunities and risks to bear in mind? What's the best investment strategy to adopt given the outlook in 2010? Find out the answers to these questions and gain other interesting insights on the outlook for markets from our panel of experts.
